

SALVANO

The wine is the mirror of the land

The story started in Diano d'Alba, where the wine is the mirror of the land, way back in the 30's when the winery was founded through hard work, determination and perseverance.
What started as a small Grillo (farmhouse) operation, today is a modern winery making lauded wines served in many of the finest restaurants the world over. Years of passion, dedication and love for the work in the vineyard and the winery make us proud of our wines and is the basis of our success.

The land

Langhe is the most important viticultural region in Northern Italy as far as quality and varieties of wines are concerned. Steep hills require meticulous work in the vineyards but our gentle and sinuous slopes, a panorama of haunting beauty, especially during the "nebbia" (fog) were recognized in 2014 by Unesco as a World Heritage site.

The Wine

Since the beginning, Salvano has paid great attention to the work in the vineyards to preserve and enhance the different characteristics that our soils can give to the wine. The vines are located on the best hills of Diano d'Alba (where our cellar is located), in Ricca, Roddino, Barbaresco, Treiso, Serralunga, Monforte d'Alba and several villages in the Roero. Different vineyards each have a unique style so they all bring a special quality to our exclusive and distinctive wines. Nebbiolo, Dolcetto, Barbera, Chardonnay and Arneis are indeed amongst the most prestigious vines in the world.

The Salvano company today

Salvano wines are appreciated both in Italy and globally, winning awards and medals which reward the passion and love for the pursuit of quality. Today the General Management, managed by Luciana Agnello for over 40 years with great dedication, passes to their sons Massimo and Alessio Sobrero, assisted by their father Piero.
